CORE COMPETENCIES

- ✓ Product Strategy, Discovery & Roadmapping
- ✓ Business & Stakeholder Leadership (Multi-Region)
- ✓ Complex Systems & Risk-Aware Decision Making
- ✓ Program & Cross-Team Delivery Leadership
- ✓ Regulatory & Compliance-Critical Platforms
- ✓ ServiceNow CSM & ITSM (Functional Leadership)
- ✓ Agile & AI-Augmented Product Delivery
- ✓ AI-Assisted Discovery, Risk Analysis & Documentation Acceleration

Enterprise Platforms & Delivery Tooling (Leadership Exposure)

- ✓ ServiceNow, SQL
- ✓ Modelling tools (Visio, Bizagi)
- ✓ ALM tools (Azure Devops, Jira)

AI & Automation Exposure

- ✓ Generative AI tools for requirement drafting, documentation structuring, and risk surfacing
- ✓ AI-supported impact analysis in complex enterprise platforms
- ✓ Exploration of workflow automation opportunities in regulated systems

Product Strategy | Program Leadership | Enterprise Platforms | AI-Augmented Delivery | Stakeholder Alignment | Regulated Systems

PROFESSIONAL SYNOPSIS

Product and Delivery Leader with 17 years of experience driving business outcomes in complex, high-risk enterprise systems. Proven track record of owning ambiguous problems, leading cross-functional and multi-region stakeholders, and delivering scalable solutions through clear trade-offs and pragmatic decision-making. Known for resolving stakeholder conflict, aligning initiatives to business objectives, and balancing speed, risk, and long-term value. Increasingly leveraging AI-assisted discovery, impact analysis, documentation structuring, and decision support to improve product velocity and delivery precision in regulated environments.

WORK EXPERIENCE

Eurofins IT Solutions

(April 2014 – August 2025)

Product & Delivery Leader (Senior Product / Program Management responsibilities)

Eurofins IT Solutions supports global laboratory and regulated scientific systems across Food, Pharma, Environment, and Clinical domains. Eurofins IT Solutions India (EITSI) exclusively caters to Eurofins Global IT business needs, providing world-class, high-quality IT Solutions and Services with a special focus on next generation Laboratory Information Management System (LIMS) in addition to creating and delivering various internal applications and IT products for the Eurofins Group.

Program/Project: Eurofins – eLIMS-NG – CL-AP

Project Duration: April 2014 – August 2025

Client: Eurofins IT Solutions, India

Domain: Life Sciences, Laboratory Services, Clinical Services

Role: Product & Delivery Leader

Scope: Global platform | Multi-country EU stakeholders | Cross-functional teams | Compliance-critical domain

Key Accountabilities & Impact:

- **Accountable** for product ownership and business leadership of eLIMS-NG, a global laboratory information platform supporting regulated scientific workflows across multiple regions.
- **Owned prioritization and roadmap inputs**, balancing business value, regulatory risk, system stability, and delivery constraints across releases.
- **Led product discovery and decision-making** through stakeholder workshops, CAB forums, **AI-assisted** impact analysis, and cross-functional alignment across business, compliance, and technology teams.
- **Drove high-risk change initiatives** in complex calculation and workflow areas by leveraging **AI-assisted** evaluation of solution options, surfacing trade-offs, and protecting downstream system integrity.
- **Served as the primary decision interface** between European business stakeholders, compliance teams, engineering, QA, and integration teams.
- **Built and mentored global BA teams**, improving delivery maturity, stakeholder confidence, and execution quality across geographies.

Selected Outcomes & Business Impact:

- Enabled delivery of regulatory and business-critical changes in complex calculation areas without compromising platform stability.
- Improved stakeholder alignment and trust across EU business teams through transparent, trade-off driven decision-making.
- Reduced downstream delivery risk and rework by introducing AI-augmented structured discovery and solution evaluation practices.

ACHIEVEMENTS

- ✓ EITSI Peer Recognition – 2021
- ✓ Star Performer – 2020

EDUCATION CREDENTIALS

Dr. B.A. Tech. University, July 2005, First Class
with Distinction- 70%

EARLIER EXPERIENCE

Mphasis Pvt. Ltd.
QA Engineer

(Aug 2008 – Mar 2014)

Mphasis Limited is an IT services and consulting company that provides infrastructure technology and applications outsourcing services. It serves financial services, telecom, logistics, and technology industries.

- Enterprise testing across Banking, Logistics, Financial Services
- Exposure to large-scale, multi-client delivery environments
- End-to-end **manual and functional testing** across web and enterprise applications, including requirements analysis, test planning, test case design, execution, and defect reporting
- Hands-on experience in **UAT support**, working closely with business stakeholders to validate critical workflows and ensure release readiness
- Defect management using tools like JIRA, including **root cause analysis, severity prioritization, and retest cycles**
- Collaboration with cross-functional teams (BA, developers, product owners) in **Waterfall and Agile/Scrum delivery models**
- Strong exposure to **regression, integration, and system testing** to ensure stability across frequent releases
- Contributed to enterprise-scale delivery governance by strengthening requirement clarity, traceability, and defect containment practices.
