

SUMMARY

Venture builder with 6+ years as part of the founding team at Modulus Housing, scaling the company to **\$30M+ revenue** and supporting a **\$8.5M fundraising**.

Built and scaled **multiple ventures across healthcare, education, and agritech**, leading new business creation from opportunity identification to market deployment.

Operate at the intersection of **market selection, business model design, and execution**, with a focus on building scalable ventures in complex environments.

EXPERIENCE

Modulus Housing | CTO & New Ventures | 2019 – 2025

Built multiple ventures from scratch as part of the founding team, working directly with the CEO and COO to take businesses from zero to market and scale.

Venture Portfolio

Medicab - Rapid deploying Healthcare Infrastructure

- Delivered **1000+ deployments** across hospitals and public sector clients.
- Generated **\$12M+ revenue**, establishing Medicab as a primary growth driver.
- Enabled **50% faster deployment timelines** using patented modular technology.
- Built business model, product architecture, and execution systems for mission-critical environments.

Educab - Education Infrastructure

- Identified a gap in scalable infrastructure where traditional construction was slow and capital-intensive for institutional expansion.
- Built modular solutions aligned to **procurement cycles and budget constraints**, improving adoption across schools and labs.
- Addressed adoption barriers by introducing **phased deployment models**, reducing upfront investment and accelerating decision-making.
- Designed **modular, repeatable deployment systems** enabling multi-location rollout.
- Created standardized configurations and execution playbooks to support **scalable expansion**.

Agricab - Agritech Micro Infrastructure

- Scaled to **100+ locations** via partnerships with agri groups and cooperatives.
- Enabled farmers to build **micro-enterprises and D2C products from existing produce**.
- Introduced **partner-led financing model** to reduce upfront cost barriers.
- Built ecosystem partnerships to enable rural adoption.

Venture Creation, Scaling & Execution

- Owned end-to-end development from opportunity identification to execution and early revenue.
- Led cross-functional execution across engineering, manufacturing, vendors, and field operations.
- Built and scaled a **30+ member cross-functional team** across multiple ventures.
- Conducted **100+ customer conversations** to validate demand, pricing, and product direction.

Strategic Decisions & Business Building

- Owned **commercial outcomes and revenue performance** across key business lines
- Led **pivot from B2C to B2B**, unlocking scalable enterprise demand.
- Designed **asset-light manufacturing and supply chain model** to accelerate scale and reduce capital intensity.
- Introduced financing innovation to unlock adoption in price-sensitive markets.
- Made rapid **go or no-go decisions**, prioritizing high-potential opportunities.
- **Prioritized and allocated resources** across multiple ventures based on traction, market potential, and scalability

VENTURE ADVISORY

Advisor - Early-Stage Founders | IIT Startup Ecosystem

- Helped founders move from **idea to MVP through** rapid prototyping and validation.
- Guided **business model, pricing, and go-to-market decisions**.
- Evaluated early-stage ideas and guided founders on venture viability, prioritization, and **go/no-go decisions**.

CORE CAPABILITIES

0→1 Venture Creation and Company Building

Market Opportunity Identification and Validation

Business Model Design and Commercial Scaling

Execution and Scaling in Complex Operating Environments

Asset-Light Growth and Partnership-Led Expansion

Cross-Functional Leadership across Product, Engineering, and Operations

TOOLS & BUILD STACK

Notion, Jira, Miro

Excel and Google Sheets for business modeling and analysis

Cursor and Generative AI tools for rapid prototyping, automation, and workflow design

EDUCATION

B.E. Mechanical Engineering

Dayananda Sagar College of Engineering, Bengaluru, India
