SUMMARY

Associate Product Manager with 3.5+ years of experience building and scaling SaaS platforms across FinTech and EdTech. Proven track record in 0-1 launches, AI-enabled product optimization, and data-driven platform improvements delivering up to 45% operational efficiency gains. Strong in roadmap execution, KPI ownership, and cross-functional leadership.

WORK EXPERIENCE

- Think Exam (GingerWebs)** Noida, India
Associate Product Manager July 2025 - Present
 - Product Revamp & Quality Improvement:** Revamped an AI-enabled proctoring platform (SaaS + PaaS), improving cheating detection accuracy, reducing false positives by **35%**, and supporting **5L+ concurrent exams** without downtime.
 - 0→1 SaaS Product Launch:** Built and launched an interview platform enabling AI-based and manual interviews, delivering the first version within **2.5 months** with **100% milestone adherence**.
 - Pre-Exam Issue Resolution (Pan India):** Optimized pan-India center-based exam workflows, reducing pre-exam issue resolution time by **35%** and minimizing live-exam escalations across all centers.
 - Stakeholder Management:** Led cross-functional requirement discovery across sales, support, and operations teams, reducing post-build requirement changes by **15%**.
 - Product Vision & Prototyping:** Created end-to-end workflows and AI-assisted prototypes to communicate product vision, accelerating stakeholder alignment by **25%**.
- C&R Software** Bangalore, India
Consultant July 2022 - July 2025
 - B2B GTM & Product Adoption:** Defined workflows and feature scope for an AI-powered agent platform, accelerating enterprise adoption and reducing new-agent onboarding time by **30%**.
 - User Experience & Productivity Optimization:** Improved agent journeys by automating data access and repetitive workflows, reducing average customer handling time per account by **45%**.
 - Data Integrity & Platform Accuracy:** Partnered with US banking stakeholders to translate collections workflows into scalable product enhancements, improving recovery efficiency and platform reliability.
 - Analytical Problem Solving :** Leveraged **SQL-driven analysis** and structured data validation to diagnose platform issues, uncover root causes, and enable data-backed product decisions.
 - Cross-Functional Stakeholder Management:** Partnered with engineering, QA, and client teams to ship features across enterprise implementations, reducing post-release escalations.
 - Product Artifacts:** Authored PRDs and release documentation to support smooth enterprise rollouts and reduce dependency on reactive support.
- IQVIA** Delhi, India
Project Associate Feb 2022 - Jul 2022
 - Team Leadership:** Led a **10-member intern team** for a nationwide MOHUA (Ministry of Housing and Urban Affairs) project, coordinating deliverables and reporting to senior stakeholders.
 - Data Analysis:** Analysed **50K+ survey responses** to improve data quality and insights, identifying key trends and anomalies for stakeholder reporting.
 - Reporting:** Built BI dashboards and reports for internal and government stakeholders, enabling data-driven decision making and transparency.

SKILLS

- Core Competencies:** Roadmapping, PRDs, User Stories, KPI Definition, GTM, A/B Testing, Backlog Prioritization, Product Strategy, Agile Methodologies, Market Research, Product Analytics, Stakeholder Management
- Analytics & Tech :** SQL, Python, Data Validation, API Understanding, AWS
- Tools:** Jira, Google Analytics, Figma, Tableau, SSRS, Pentaho, MS Office (Word, Excel, PPT)

EDUCATION

- B.Tech, Computer Science** Jaipur, India
Jaipur National University 2018 - 2022
