Work Experience

Product Manager at Air India

June 2023 - Present

Contact Centre Solution – Transformational Journey (AI Takeover by Tata Group)

- Implemented a next-gen **CRM Salesforce & Genesys Cloud** telephony integrated contact centre solution to support **1,500+** agents
- Established 24/7 support with advanced call routing based on language, location, skill set & personalized IVR flows with **CDP**
- Developed auto case creation and used APIs to seamlessly transfer call data and recordings to Azure storage for real-time analytics
- Improved **NPS** by **20** points and increased **CSAT** by **15%** within 1.5 years post-implementation with low-code/no-code approach
- Linked call recording to case object in Salesforce for effective and efficient search capabilities for audit compliance
- Reduced **5%** call volume by upgrading chatbot and launching website self-service options for handling basic customer queries

Automation of Azure AD Password Reset for Contact Centre

- Automated Azure AD password reset process via **ServiceNow** to eliminate manual intervention for 1500+ agents without email access
- Enhanced productivity & reduced **10 Lakh/month** financial loss due to downtime through SSO-enabled apps Salesforce & Amadeus
- Achieved **15%** reduction in process cycle time & **20%** increase in efficiency by secure password delivery to supervisors within seconds

Automation of Salesforce User Offboarding

- Led the automation of the Salesforce user offboarding process via ServiceNow to address Salesforce user license shortage issues
- Achieved significant cost savings of **~1 Lakh** per month by optimizing license utilization in contact centre environments

Knowledge Base System for Voice and Non-Voice

- Implemented a centralized Knowledge Base system over Salesforce for voice and non-voice (Web to Case, Social, Chat) agents
- Optimized Knowledge Article recommendations by classification & adding features like attach/detach, favourites, and view tracking
- Reduced **AHT** of contact centre by **45 sec** by enabling quick access of article & enhancing agent productivity and knowledge base.

Air India-Vistara Merger

- Coordinated CRM migration with cross-functional teams to merge **2.5 Lakh** Vistara tickets with Air India for seamless AI-UK merger
- Documented implementation strategy for AI CRM object structures, unified data elements & scalable Databricks integration pipelines
- Managed contact centre cutover strategy, supporting both loyalty & non-loyalty customer data consolidation into a unified CRM
- Led post-merger data testing & continuous monitoring frameworks to maintain data integrity across Salesforce CRM & Data Cloud

Sensitive Case Tagging System - Web-to-Case (W2C)

- Built an automated tagging system in Salesforce W2C to flag sensitive case using keywords like "suicide", "bomb" in case descriptions
- Built alert mechanism to notify stakeholders via SFDC, email & manual tagging feature based on agent judgment for customer safety
- Reduced manual triage effort by **40%**, improving response time, brand trust & risk mitigation by timely case escalation & resolution

Food and Beverage Complaint Management System

- Developed a centralized system for in-flight food and beverage complaints, streamlining resolution with crew, HO, F&B, and caterers
- Designed severity-based auto-routing in SFDC to prioritize critical issues and enabled photo/video proof uploads for accountability
- Reduced complaints by **20%** and enhanced in-flight food and beverage quality, customer satisfaction & streamlining issue resolution
