

EXPERIENCE

Delegate Maestro & AI Strategist (Founding Team)

The Venio

📅 08/2025 - 10/2025 📍 Bengaluru

- Directed event design and delegate experience for premium formats including a Dubai yacht networking event; coordinated 10+ vendors and negotiated ₹5L+ vendor savings and ₹50K+ per-person travel savings
- Designed and automated an AI-driven lead pipeline integrating Apollo.io and Zoho CRM with Python scrapers; reduced lead enrichment time from 3–4 hours to 20 minutes
- Built invite lists of 500–1,000 HNIs/UHNIs for Dubai Ascent and Off-Menu; executed personalized outreach to 200+ prospects, converting 5 high-value delegates for a 25-member cohort
- Defined success KPIs for delegate satisfaction, sponsor deliverables, and P&L alignment with The Venio's IP-led luxury event strategy
- Consolidated multi-event data across verticals (F&B, hospitality, family offices) through automation scripts, building the foundation for AI-based lead scoring

AI Engineering Senior Analyst

Accenture

📅 07/2020 - 12/2022 📍 Bengaluru

- Developed forecasting models for inventory optimization across NBFC, Retail, and Construction clients
- Built a Qlik Sense monitoring ecosystem for 500+ apps integrating 25+ data sources; automated QA validation, eliminating manual intervention
- Lowered web app reload time by 25% via compression algorithms, improving UX and bounce rates
- Administered AWS-based analytics servers; implemented an uptime tracking framework, improving stability for global clients
- Oversaw weekly meetings with Directors/VPs, cutting open deliverables from 30+ to under 5; trained 2 junior analysts, reducing ramp-up time by 50%
- Received 'STAR Award' for practice-building and cross-team innovation, and promoted from Analyst to Senior Analyst

INTERNSHIPS

Business Analytics Intern

AWE Funds

📅 06/2024 - 12/2024 📍 Gurgaon

- Designed dashboards for 150+ LPs segmented by geography and engagement probability, improving investor targeting precision
- Automated enrichment of LP datasets using APIs and outreach tools, achieving 90% accuracy and saving significant manual time
- Conducted market research and impact-investment thesis development across more than 10 sectors; co-built LP scoring models supporting investment pipeline prioritization

Business Analytics Intern

BRIDGEi2i Analytics Solutions 📅 12/2019 - 07/2020 📍 Bengaluru

- Built an interactive Qlik Sense dashboard for the senior leadership of a major Indian NBFC, reducing reporting turnaround time by 85% through systematized daily data refreshes
- Developed a Python + React.js web app for a global electronics client's marketing division, improving campaign visibility and analytics access for over 200 internal users
- Optimized backend and pipeline performance, cutting data latency by 60% and ensuring 100% QA-verified accuracy across all data layers

SUMMARY

Marketing and product management professional with 2.5 years of experience driving business impact through automation, analytics, and strategic execution. At Accenture, built forecasting systems and automated workflows that improved operational efficiency across enterprise clients. At The Venio, designed AI-driven marketing processes and event automation frameworks that streamlined acquisition and performance. Combines analytical depth with startup agility, well-suited for growth, product, and strategy-driven roles.
