

Results-driven Product Manager with 2+ years in fashion tech and e-commerce, and 5+ years navigating the fast-paced challenges of early-stage environments. I have built and launched real products that solved real user problems and drove business impact.

EDUCATION

Anna University	B.Tech in Fashion Technology	Aug 2016
Product Space	Product Management Fellowship	Jan 2025

WORK EXPERIENCE

Product Manager	Size n Fit Technology	Apr 2023–Present
-----------------	---------------------------------------	------------------

- Led 0→1 build of a Size & Fit tool, rolling it out to 25+ brands, which achieved a **20% reduction in size-related customer returns** and boosted shopper confidence.
- Drove UI/UX redesign of Size n Fit widget** for a key partner brand to address low visibility and usage. Analyzed adoption data, collaborated on prototypes, and deployed changes that increased monthly usage by 200% and significantly boosted click-through rates, enhancing customer engagement.
- Led market acquisition for the Size n Fit tool by demoing to over **60+ apparel & footwear brands, and collaborated** with these partners to define requirements, manage product backlogs, and ensure robust solution delivery for the tool.
- Designed, launched, and scaled "TheStitching.com Partner Program"** to address tailor onboarding friction, leveraging clear value propositions (via WhatsApp marketing, email, social channels) and streamlined UX (minimal data entry) to onboard 80+ new tailors in 2 months and accelerate sign-ups by 74%.
- Managed and maintained **TheStitching.com product catalog** (WooCommerce platform), overseeing image editing and daily product launches, with over 200+ products updated

Fashion Consultant	Size n Fit Technology	May 2017 - Apr 2023
--------------------	---------------------------------------	---------------------

- Streamlined data collection for **100+ apparel brands and body measurements**, collaborating with the tech team enable accurate Size n Fit recommendations and A/B testing.
- Owned end-to-end QA and validation for the Size n Fit tool, defining test strategies and managing bug triage via Zoho BugTracker to ensure robust, high-quality, and user-ready solutions for market deployment.
- Conducted extensive market research to understand consumer needs and competitor offerings**, using insights to propose promoting products and features that resonate with target audiences.
- Acted as Subject Matter Expert (SME) for apparel and fashion technology, creating reference guides and validating technical specs.

Executive Supply Chain	Intimate Fashions, Chennai	March 2016–Dec 2016
------------------------	----------------------------	---------------------

- Managed and updated master data for accurate inventory, material, and supplier information, preventing stockout and overstock.
- Collaborated cross-functionally to implement the milk run concept, achieving 30% transportation cost savings and improving material delivery efficiency.
- Resolved critical master data inconsistencies across ERP systems, preventing production delays and ensuring accurate order fulfillment.
