PROFESSIONAL SUMMARY

Senior Product Manager – Data & AI Platforms

Product leader with 10+ years’ experience in building, scaling and optimizing Enterprise SaaS platforms across ValueMatrix.AI, Microsoft, American Express and ZS. Proven record of defining Product Strategy, owning roadmaps & OKRs, Data-driven decision making and partnering with Engineering, Design and Data science to deliver high-performing, customer-centric products adopted at scale.

WORK EXPERIENCE

ValueMatrix.AI

➤ Senior Product Manager

Oct 2025 – Present • Delhi (Remote)

- Leading the cultural-fit assessment pillar in hiring by building DeepTech tools integrated into ATS workflows and powered by Voice AI analytics
- Owning the end-to-end Team Dynamics product, which evaluates candidate–organization fit and drives cultural alignment for hiring decisions
- Partnering with Research and Data Science to shape product roadmaps, define scoring logic, and validate models using research inputs from IIM-A collaborators

Microsoft India (R&D) Pvt. Ltd.

➤ Product Manager 2

Apr 2022 – Aug 2025 • Noida, Uttar Pradesh • Org: Enterprise Platform & Services Engineering

- Owned Product vision & roadmap for Enterprise-wide Insights platform, scaling to **12,000+ global users** with 300+TB of data, ensuring reliability & performance
- Launched **Copilot-based insights tooling**, integrated across global sales teams, improving adoption by **40%** and accelerating decision-making
- Defined and executed vision for **Customer ROI dashboard** linking **\$400M+** investments to Azure Consumed Revenue; drove adoption across 8,000+ stakeholders
- Partnered with engineering to build data pipelines, ETL workflows, and scalable reporting across Azure
- Defined KPIs & funnel metrics for adoption, iterating on experiments to drive **top-20 ranked BI solutions (out of 2M+ reports)**
- Built extensibility through **APIs & Self-service analytics**, cutting dev requests by **30%**
- Delivered a Sales Talent Intelligence Platform enabling performance and skills visibility for **10,000+** Customer Success personnel, improving operational planning and workforce alignment

American Express India Pvt. Ltd.

➤ Product Manager

Oct 2016 – Apr 2022 • Gurgaon, Haryana • Org: Enterprise Digital & Analytics

- Led roadmap & delivery of an internal **analytics platform** serving **6,000+ stakeholders** across Marketing, Risk & Finance
- Partnered with marketing and risk teams to derive **insight-led strategies** impacting **19M+ customers globally** across **25 Global markets**
- Supported RBI India **data localization compliance** by coordinating migration of employee datasets to approved data centers, verifying integrity through audit checks
- Led data migration & governance of **1,200+ data elements** to Big Data platforms, ensuring compliance and quality
- Led impact analysis on **4500+ tables**; published KPIs to measure platform throughput, turnaround, and data quality

ZS Associates Pvt. Ltd.

➤ Business Operations Associate

Jul 2015 – Oct 2016 • Gurgaon, Haryana • Domain: Incentive Compensation Analytics (US Pharma Client)

- Built Sales enablement and **Performance analytics platforms** for **Fortune 100 clients** in pharma/healthcare
- Automated KPI visualizations in Tableau/Excel, reducing turnaround time by **60%**
- Aligned compensation reporting with client strategy, ensuring executive adoption
