PROFESSIONAL SUMMARY

Product Manager with 4 years of experience in logistics operations and freight-tech SaaS. Built fluency in how freight forwarders and 3PLs operate before moving into product. Owned product areas independently at an early-stage company. Ship fast, learn from what lands, cut what doesn't.

WORK EXPERIENCE

Product Manager

Portzen Technologies Pvt. Ltd. (Freight Visibility SaaS, 35 employees), Mumbai · Mar 2022 – Present

- Sole PM responsible for shipment tracking, exception management, and carrier integration modules — no PM manager above, decisions owned end-to-end
- Shipped 7 features in 14 months; killed 3 after post-launch data showed <8% adoption despite strong qualitative signal in discovery
- Reduced customer-reported exceptions by 34% through a proactive alert system designed after spending 2 weeks embedded with the operations teams of 3 freight forwarder clients
- Built the product's first API documentation in collaboration with engineering — reduced new customer integration timelines from 6 weeks to 3 weeks
- Ran fortnightly discovery sessions with freight forwarder ops teams; fed findings directly into sprint planning with no translation layer

Operations Coordinator

Mahindra Logistics Ltd., Mumbai · Jul 2020 – Feb 2022

- Managed day-to-day operations for 3 FMCG client accounts — carrier allocation, inbound shipment scheduling, and exception resolution across 400+ movements monthly
- Built a carrier performance tracking sheet that became the branch's standard reporting tool — introduced carrier accountability conversations that hadn't existed before
- Coordinated directly with CHA partners on customs documentation for time-sensitive pharma imports — learned the documentation chain from both sides
- Led a process improvement initiative that reduced average dwell time at the Mumbai DC by 1.8 days over 6 months

Graduate Trainee — Supply Chain

Mahindra Logistics Ltd., Mumbai · Feb 2020 – Jun 2020

- 5-month rotational programme across warehousing, last-mile, and customer operations functions
 - Supported the ops team during a 3PL contract renewal — gathered usage data, documented service gaps, and prepared the internal review deck
-
