PROFESSIONAL SUMMARY

Product Manager with roots in customs documentation and freight forwarding operations. Ran operations at a family CHA firm for 3 years before completing an MBA and moving into product. Built and owned a freight document automation product from scratch at an early-stage startup. Comfortable with the language and the reality of import-export operations — not just the theory.

WORK EXPERIENCE

Product Manager – Document Automation

ClearDoc Technologies Pvt. Ltd. (Freight-Tech, 20 employees), Bengaluru · Jun 2022 – Present

- Owns the core document processing product — Bill of Lading extraction, shipping instruction validation, and customs filing automation — sole PM from day one
- Designed the extraction rules engine after 6 weeks of field work at 4 customs house agent offices in Kochi, Chennai, and Mumbai; built rules from real documents, not specification sheets
- Shipped the first working version in 10 weeks; iterated 4 times in 6 months based on edge cases discovered in production — each iteration triggered by a client conversation, not a roadmap plan
- Reduced average BoL processing time at the company's pilot client from 45 minutes to 6 minutes per document
- Brought in 2 additional CHA clients through product demos; no sales team at the time — presented the product myself to ops heads

Operations Executive

Nair CHA & Freight Services, Kochi · Jul 2016 – May 2019

- Handled Bill of Lading preparation, shipping instructions, customs clearance coordination, and bank documentation for 120–150 shipments monthly
- Coordinated with JNPT, Kochi Port Trust, and Air Cargo Complex at BIA across both import and export clearances
- Managed LC document preparation for 8 regular exporter clients — coordinated with negotiating banks and buyers' agents directly
- Built a shipment status tracker in Excel after noticing that the team had no reliable way to tell clients where a shipment stood; it became the team's primary client communication tool

EDUCATION

MBA, Operations & Strategy · Great Lakes Institute of Management, Chennai · 2020–2022 · Gold Medalist, Operations
