Professional Summary

Product Manager with 2 years in product, preceded by 3 years in supply chain planning and carrier operations at a national 3PL. Built operational instincts in logistics before moving into product. Own things end to end. Ship and learn in short cycles. Have killed two features I championed after the data proved me wrong.

Work Experience

Product Manager

Routemaster Technologies Pvt. Ltd. (Last-Mile & Carrier SaaS), Chennai · Apr 2023 – Present

- Sole PM for carrier integration and route planning modules — only PM in the company for the first 8 months
- Shipped 5 features in 12 months; killed 2 — one after a week (data showed the behaviour we assumed didn't exist), one after a month (adoption was strong but the right customers weren't using it)
- Designed carrier rate benchmarking feature after 3 months of discovery with logistics managers at 8 companies; feature became the primary sales demo hook
- Built product documentation from scratch; created the first user manual that didn't exist when I joined
- Runs weekly calls with 5 carrier partners to understand operational constraints that affect the platform — product decisions informed by carrier ops reality, not assumptions

Senior Supply Chain Analyst

TCI Supply Chain Solutions Pvt. Ltd., Chennai · Sep 2021 – Mar 2023

- Managed carrier planning and exception management for 4 FMCG client accounts across South India — 600+ shipments monthly
- Built a delivery SLA monitoring dashboard in Tableau; moved from reactive to proactive exception handling — reduced SLA breaches by 22% over 2 quarters
- Renegotiated rates with 3 underperforming carriers using a performance data model I built; saved ₹18L annually on one account

Supply Chain Analyst

TCI Supply Chain Solutions Pvt. Ltd., Chennai · Jul 2020 – Aug 2021

- Demand forecasting, carrier scheduling, and delivery exception management for 2 manufacturing client accounts
- Rebuilt the daily exception report format that the ops team sent to clients — reduced back-and-forth by removing ambiguity from the status descriptions

Education

B.E., Industrial Engineering · Anna University, Chennai · 2016–2020 · CGPA 8.4/10
