Professional Summary

Product Manager with 4 years of experience in HR technology and enterprise SaaS. Track record of delivering well-adopted features at scale, managing complex stakeholder environments, and driving measurable business outcomes. MBA from Symbiosis. Strong in structured product development processes and enterprise sales-product alignment.

Work Experience

Product Manager

GreytHR (HR Payroll & Compliance SaaS, 400 employees), Pune · Aug 2022 – Present

- Owns the payroll processing and compliance module — 18,000+ SMB and enterprise clients across India
- Shipped 10 compliance features in 2 years aligned to regulatory changes (PF, ESIC, new labour codes); zero missed compliance launch dates
- Redesigned the payroll input portal based on 40+ user interviews with payroll managers and finance teams; reduced data entry errors by 31%
- Works within a 6-person PM team; reports to Director of Product; owns one module with shared roadmap responsibility
- Quarterly Business Reviews with 5 key enterprise accounts; manages product feedback loop with the enterprise customer success team

Associate Product Manager

Darwinbox (HR Tech SaaS, Series D), Hyderabad · Jun 2020 – Jul 2022

- Supported PM on the leave, attendance, and travel expense modules — used by enterprise clients across banking, manufacturing, and IT
- Owned discovery and spec for the mobile leave application flow; redesign reduced submission friction and increased mobile adoption from 34% to 67%
- Built competitive analysis framework for the HR tech market; presented findings to CPO quarterly
