
Professional Summary

Product Manager with 4 years in banking technology and financial services SaaS. Strong in regulated product environments, compliance-first development, and multi-stakeholder alignment in large organisations. MBA from IIM Trichy. Currently exploring opportunities outside financial services to apply structured product thinking to a different domain.

Work Experience

Product Manager – Core Banking Platforms

FIS India (Financial Technology, 2000+ employees), Chennai · Aug 2021 – Present

- PM for the corporate payments and trade finance module — used by 8 private sector bank clients in India
- Shipped 6 compliance and regulatory features aligned to RBI guidelines over 3 years; all delivered on schedule for regulatory deadline
- Managed roadmap planning across 3 concurrent bank implementations; coordinated stakeholder reviews across compliance, IT, and business teams at each bank
- Works within a 12-person PM organisation at FIS India; reports to Product Director; all decisions reviewed in monthly roadmap forums
- Strong at planning, documentation, and compliance; decision cycles typically 6–8 weeks from idea to approval before build begins

Associate Product Manager

FIS India, Chennai · Aug 2019 – Jul 2021

- Supported PM on the SWIFT messaging and correspondent banking module
- Wrote functional specifications for 4 payment gateway integrations; coordinated with bank clients' IT teams for requirements sign-off
- Maintained the product requirements wiki — documentation quality audited at 95% in internal review
