Professional Summary

Senior Product Manager in freight-tech with 8 years of experience spanning customs house agency operations, freight forwarding, and SaaS product management. Grew up in a CHA family business — spent 3 years there before completing an MBA and moving into product. Build software for freight operations teams because I know from the inside what they need and what they will actually use.

Work Experience

Senior Product Manager – Integrations & Compliance

Shipthis Technologies (Freight SaaS, 120 employees), Bengaluru · Mar 2021 – Present

- Leads the integrations and compliance product area — carrier connections, customs authority APIs, and ERP bridges
- Owns the team of 2 junior PMs; accountable for the integration roadmap and all customer-impacting technical compliance decisions
- Designed the DGFT ICEGATE integration after understanding the filing process firsthand from the CHA side — reduced customs filing time for clients from 45 minutes to 6 minutes per shipment
- Led the CargoWise API integration project — 18 months, coordinated across 3 engineering squads and 8 enterprise customers; became the platform's highest-revenue feature at launch
- Killed a shipper portal feature 3 months into development after realising the real value was on the freight forwarder side — absorbed significant sunk cost, made the call anyway
- Built the team's discovery practice: quarterly "embed days" at 2 client offices where the PM team works alongside the operations team for a full day

Product Manager

Shipthis Technologies, Bengaluru · May 2019 – Feb 2021

- Owned the core freight booking and shipment tracking modules
- Shipped the platform's first mobile app — designed with input from 25+ freight operations staff across 4 client companies
- Grew the product from 12 to 40 enterprise clients during this period

Operations Executive

Verma CHA & Logistics, Delhi NCR · Jun 2016 – Apr 2018

- Handled customs clearance coordination, Bill of Lading preparation, and client communication for 100+ import and export shipments monthly
- Managed the company's IEC filing and DGFT documentation for 8 exporter clients
- Introduced a client shipment status WhatsApp update system that was later adopted as the company's standard client communication method
