PROFESSIONAL SUMMARY

Senior Product Manager with 6 years in supply chain and logistics SaaS. Spent 3 years in supply chain operations at a national 3PL before moving into product. Sole PM at a Series A logistics SaaS for 2 years — built and shipped a platform that is now used by 60+ freight forwarding and logistics companies. Ship fast, use data to validate, kill ideas with the same discipline used to generate them.

WORK EXPERIENCE

Senior Product Manager

Logi9 Technologies Pvt. Ltd. (Supply Chain SaaS, Series A, 70 employees), Bengaluru · Jul 2021 – Present

- Sole PM for the platform's first 2 years; now leads a 2-person PM team as the team has grown
- Owns the multi-modal shipment tracking, carrier management, and exception handling product areas
- Built the platform's core architecture in the first 6 months: data model, module structure, and integration priorities — based on 8 weeks of field research at 10 logistics companies across Bengaluru, Chennai, and Mumbai
- Shipped 15 features in 4 years; killed 5 — two were killed at PRD stage after discovery showed the assumption was wrong, three were killed post-launch within 30 days
- Manages the PM team of 2 junior PMs; runs weekly 1:1s and bi-weekly product reviews
- Has sat in on 100+ customer discovery, onboarding, and check-in calls — no filtering through a customer success layer

Senior Supply Chain Analyst

Mahindra Logistics Ltd., Bengaluru · Apr 2019 – Jun 2021

- Managed carrier allocation, capacity planning, and exception management for 4 enterprise client accounts across the South India region
- Led a cross-client carrier consolidation initiative that saved ₹22L annually in freight costs across the managed accounts
- Onboarded 2 new client accounts onto the TMS platform — coordinated between client teams, Mahindra's IT, and the platform vendor

Supply Chain Analyst

Mahindra Logistics Ltd., Bengaluru · Jan 2018 – Mar 2019

- Demand planning, carrier scheduling, and delivery exception coordination for 2 FMCG client accounts
 - Redesigned the delivery exception escalation matrix after a recurring delay in routing critical issues; new matrix adopted by the regional ops team
-
