
Professional Summary

Senior Product Manager with 9 years of experience — started in logistics management consulting (field-based, not strategy-desk), moved into product at a freight-tech company, and built the company's TMS product from the ground up. Deep understanding of how road freight, FTL/LTL, and carrier operations work in the Indian market — built from 3 years of plant visits and ops audits.

Work Experience

VP Product (Senior PM-equivalent)

Blume Logistics Technologies Pvt. Ltd. (TMS & Freight-Tech, 80 employees), Mumbai · Aug 2019 – Present

- Built the product function from scratch — first product hire; grew to lead a team of 3 PMs
- Designed and shipped the company's TMS product from concept to 30 paying clients over 3 years — no roadmap existed before I joined
- Road freight dispatch, carrier rate management, trip sheet automation, and freight audit are the 4 modules I have owned end to end from inception
- Runs quarterly embedded visits at 2 transporter yards and 2 shipper dispatch points: 2 days minimum, observing how freight is planned, loaded, and tracked without technology intervention
- Killed a mobile app for drivers in 4 weeks post-launch: adoption was 3% of the target, the real problem was dispatcher-side, not driver-side
- Manages a 3-PM team; introduced the team's first structured discovery practice and feature measurement framework

Senior Consultant – Logistics & Supply Chain

Praxis Global Alliance (Management Consulting), Mumbai · Mar 2016 – Jul 2019

- Led supply chain and logistics optimisation engagements for mid-large industrial, FMCG, and e-commerce clients
- Spent an average of 2 days per week at client plant, warehouse, or distribution centre sites — not just data analysis from the office
- Led a road freight network redesign for a major cement company: spent 6 weeks visiting 8 plant dispatch points, riding along on deliveries, and interviewing transporters at truck terminals before drawing a single recommendation
- Delivered INR 40Cr in freight cost savings across 4 major engagements over 3 years

Analyst

Praxis Global Alliance, Mumbai · Jul 2014 – Feb 2016

- Supported senior consultants on supply chain and operations projects in FMCG and retail sectors
- Built data models, process maps, and client presentation decks; led client site visits in the junior analyst role
