Professional Summary

Senior Product Manager with 8 years of experience combining management consulting and enterprise SaaS product strategy. MBA from ISB. Strong in market analysis, go-to-market strategy, and building product narratives for enterprise buyers. Transitioning from a consulting-adjacent product strategy role into a more hands-on PM position.

Work Experience

Principal Product Manager (Strategy)

Accenture Strategy & Consulting, Mumbai · Apr 2021 – Present

- Leads a 4-person product strategy team embedded with a major Indian conglomerate's digital products division — acts as an internal product consultant rather than a hands-on PM
- Owns quarterly roadmap presentations to the client CXO team; strong in strategy communication and board-level narrative building
- Manages relationships with 6 external technology vendors providing supply chain and ERP solutions to the client
- Has not owned a product through full development and launch cycle; role is strategy definition and oversight, not delivery
- Discovery approach is structured but indirect: requirements gathered through business analyst interviews, not direct user fieldwork

Senior Consultant – Digital Products

McKinsey Digital (McKinsey & Company), Mumbai · Jul 2017 – Mar 2021

- Led digital transformation advisory for retail, logistics, and manufacturing clients across 3.5 years
- Built product strategy documents and technology roadmaps for 8 major clients — strong at the strategy and specification level
- Logistics clients included a major 3PL and an airline cargo division — reviewed their product needs from the outside, not from the inside
- Work product: decks, roadmaps, and vendor evaluations — not shipped product or running software
